- Short Travel, Soft Tactile Key Feel
- 2,4 GHz wireless Keyboard (range up to 10m)
- Ideal for True Touch Typists
- Big Touchpad in the Front
- Full Size Key Width
- Easy to Clean

Features and Benefits

The AK-4450-GFU is a high quality, highly reliable wireless keyboard with notebook style key field and integrated touchpad for use in industry, apparatus, tool and plant construction, server and kiosk as well as healthcare applications. The big touchpad in the Front allows smooth and precise control of the cursor movement also for untrained operators. The touchpad is maintenance-free and does not contain any wearing parts.

While using scissor balancing technology with open slide bearings, the keycaps are leveled against all 4 corners and such ensure excellent key guidance and feel, also with excentric actuation. With its closed contact system, the AK-4450-GFU is resistant to moisture and dust. The flat, sideways slant keys allow for easy cleaning of the key field. For extended protection, use our keyboard versions with fixed silicon membrane.

Specification	
Keyboard	
Compatibility	All operating systems supporting standard USB keyboard and mouse
LED indicators	connection, Battery status
Temperature Range	Storage –20° to + 60° C, operation 0° to + 50° C
Supply Voltage	Receiver: 5 V +5/-10% through USB interface. Keyboard: 3x 1,5V AAA batteries
Current consumption	< 100 mA (USB: Low Power Device)
Connectors	USB Typ A
Dimensions	Appr. 282mm x 206mm x 25,5mm (with anti-skid rubber feet)
Interface	Receiver: USB 2.0 (low speed). Keyboard: 2,4 GHz RF transmission
Key Switch Mechanics	Scissor Balancing Technology
Weight	Appr. 0,7kg (without packaging)
Touchpad	Common USB port
Active area	62 x 46 mm
Agency Approvals	**CE FCC**
